

Write a 3000-word essay to express your opinions and win the prizes of up to a total of ¥100,000!

Keio University Cyber Civilization Research Center  
2<sup>nd</sup> David Farber Prize for Undergraduate Student Essays

## TECHNOLOGY, GOVERNANCE AND PRIVACY – ARE WE LIVING IN 1984?

*“Who controls the past controls the future: who controls the present controls the past” - George Orwell, 1984*

How much privacy do we really have?

Do we actually own or control our data? The government?

How are we close to the society of 1984?

How could the novel, 1984 be re-written considering the contemporary technological capabilities?
